No matter what comfort means to you, Focus on Energy's Home Performance Program is designed to make your home feel more like home. The first step is a home energy assessment - a whole house evaluation of where your home is wasting energy and what improvements you can make to boost comfort and lower your utility costs by 20 percent or more.

Pay less to keep cool this summer.

SCHEDULE YOUR ASSESSMENT Visit focusonenergy.com/wholehome or call **800.762.7077** to learn more.

*Some programs require that a resident must be a customer of a participating natural gas AND electric utility. Find out if your electric utility participates at focusonenergy.com/utilities.

Earn incentives up to **\$2,250** for eligible improvements

How effective is Focus on Energy in using ratepayer dollars to save energy at Wisconsin homes, businesses, government and schools?

Focus on Energy is Wisconsin utilities' statewide energy efficiency and renewable resource program funded by the state's investor-owned energy utilities and participating municipal and electric cooperative utilities. In 2016 Focus on Energy offered financial incentives and technical assistance to help eligible Wisconsin residents and businesses save energy.

According to an independent evaluation of 2016 programs, Focus on Energy delivered \$3.00 in benefits to Wisconsin residents and businesses for every \$1.00 spent, by reducing customers' energy bills, utilities' operating costs, and the emission of environmental pollutants.
