Ready for Budget Billing?

Average your low (summer) and high (winter) bills to get a medium sized, predictable bill each month.

How does it work? We calculate your monthly Budget bill based on your total annual usage and the number of months in the budget billing year. For example, if your annual usage is predicted to cost \$600, your monthly bill is set at \$50.

Our 12-month budget billing year runs August to July. Signing up now gives you the lowest bill possible because your total annual usage is spread over the maximum number of months (12).

This predictable, medium sized bill helps you stabilize the rest of your financial budget. No big winter bills to deplete your checking account right when holiday bills arrive.

We true up your budget to match your actual usage and costs twice a year. Your budget amount is reset when we do this.

Call today for details, 715-425-6177, weekdays, 8 am to 5 pm.
