**Ready for Budget Billing?**

Average your summer and winter bills to get a medium sized, predictable bill each month.

This predictable, medium sized bill helps you stabilize the rest of your financial budget. No big winter bills to deplete your checking account right when holiday bills arrive.

Our 12-month budget billing year runs August to July. Sign up now to get a low winter bill payment.

How does it work? We calculate your monthly Budget bill based on your total annual usage and the number of months in the budget billing year. For example, if your annual usage is predicted to cost \$600, your monthly bill is set at \$50.

We true up your budget to match your actual usage and costs twice a year. Your budget amount is reset when we do this.
