

HIGH SERVICE PRESSURE - SCHEDULE HSP-1

Availability

Gas at pressures higher than Company's Standard Service Pressure of up to two pounds per square inch (2 p.s.i.) shall be made available to a customer upon request if high pressure gas is available at the customer's premises or may be made available in accordance with Company's filed extension rules, and such high pressure is required for proper operation of the customer's present or proposed utilization equipment.

When a High Service Pressure is made available as provided above, the Company and the customer shall agree upon a specific service pressure.

For the purposes of correcting high-pressure gas measurements, the following values shall be used:

Temperature base:	60 degrees F	
Assumed atmospheric pressure:	14.4 p.s.i.	Approx. altitude 950
Pressure base:	14.65
